## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-20 are rejected under 35 U.S.C. 102(b) as being anticipated by Stieler et al.

(U.S. Patent No. 6,846,279).

Stieler discloses exactly the claimed invention as clearly shown in Figs. 1 and 2 and disclosed by the claims (columns 5-8).

Claims 1-20 directed to the same invention as that of claims 1-14 of U.S. Patent No. 6,846,279 of commonly assigned Man Roland Druckmaschinen AG. The issue of priority under 35 U.S.C. 102(g) and possibly 35 U.S.C. 102(f) of this single invention must be resolved.

Since the U.S. Patent and Trademark Office normally will not institute an interference between applications or a patent and an application of common ownership (see MPEP Chapter 2300), the assignee is required to state which entity is the prior inventor of the conflicting subject matter. A terminal disclaimer has no effect in this situation since the basis for refusing more than one patent is priority of invention under 35 U.S.C. 102(f) or (g) and not an extension of monopoly.

Failure to comply with this requirement will result in a holding of abandonment of this application.

*Response to Arguments*

Applicant's arguments with respect to claims 1-20 have been considered but are moot in view of the new ground(s) of rejection.

Note that such 102 rejection should of made on the previous action of paper 20070531 along with the Double Patenting rejection.
